TECHNICAL SKILLS

PROJECT MANAGEMENT & COMPLIANCE

- Project Reporting & Donor Compliance
- Monitoring & Evaluation (M&E)
- Results Framework & Indicator Tracking
- Risk Analysis & Mitigation Reporting

DATA MANAGEMENT & ANALYTICS

- Data Collection, Validation & Analysis
- Knowledge Management & Documentation

STAKEHOLDER & COORDINATION

- Stakeholder & Coordination

ENVIRONMENTAL ASSESSMENT & STUDIES

- Environmental Impact Assessment (EIA/IEE)
- Initial Environmental Examinations
- Environmental Baseline Surveys

ENVIRONMENTAL MONITORING & ANALYSIS

- Environmental Monitoring (Air/Noise)
- Environmental Analysis and Reporting
- Environmental Modeling

EDUCATION

M.Sc Project Management

Karakorum International University (KIU), Gilgit (Weekend Program)
2022 - 2023

BE Environmental Engineering

National University of Science and Technology (NUST), Islamabad, PK
2009 - 2013

Engineering

HSSC & SSC
2006 - 2009

VASIM ABBAS

Project Manager

Environmental Engineer with 10+ years of experience delivering data-driven project reporting, monitoring, and stakeholder coordination for donor-funded initiatives aligned with international frameworks.

PROFESSIONAL EXPERIENCE

Coordinator Civil/ Environmental Engineer

WWF-Pakistan (WRAP)

Feb 2022 - Mar 2026

Served with WWF-Pakistan (WRAP) in Gilgit-Baltistan as Coordinator Civil/Environmental Engineer (Feb 2022 – Mar 2026) and Assistant Manager/Provincial Project Lead (Feb 2023 – Aug 2023), leading the implementation of environmental and infrastructure projects. Managed project execution, monitoring and evaluation, and donor compliance, while coordinating with government stakeholders and supervising field teams. Conducted environmental assessments (EIA/IEE), data analysis, and reporting to support informed decision-making and ensure quality, transparency, and timely delivery.

Environmental Consultant

Hnzian Crew/ WWF-Pakistan, GB Dimensions Associates/ AMAN Associates

Dec 2016 - Dec 2021

Served as an Environmental Consultant with Hnzian Crew/WWF-Pakistan (Dec 2019 – Jun 2020) and Dimensions Associates/AMAN Associates (Jan 2016 – Dec 2021), delivering environmental assessments, including EIA/IEE, baseline surveys, and monitoring studies. Conducted field data collection, analysis, and reporting, while coordinating with clients and stakeholders to ensure compliance with regulatory and environmental standards and support informed project planning and implementation.

Environmental Engineer/ Field Supervisor/ Researcher

Associates in Development

Jan 2016 - Jan 2022

Served as Environmental Engineer, Field Supervisor, and Researcher with Associates in Development (Jan 2016 – Jan 2022), supporting environmental studies, field operations, and research activities. Conducted data collection, surveys, and environmental assessments, supervised field teams, and contributed to analysis and reporting to ensure compliance with project requirements and environmental standards.

Junior Consultant

Mott MacDonald UK

Jul 2015

Served as Junior Consultant with Mott MacDonald UK, supporting project teams in delivering technical and analytical inputs, including data collection, analysis, and reporting. Assisted in environmental and engineering assignments, contributing to documentation, stakeholder coordination, and compliance with project and regulatory requirements.

Environmental Engineer

Sustainable Solutions Pvt. Ltd.

Oct 2017

Served as Environmental Engineer with Sustainable Solutions Pvt. Ltd., contributing to environmental assessment studies, field investigations, and data analysis. Supported preparation of technical reports, compliance documentation, and environmental monitoring activities while coordinating with project teams to ensure quality delivery aligned with regulatory and client requirements.

Researcher/ Field Engineer

UNIDO

Mar 2013 - Mar 2014

Served as Researcher/Field Engineer with UNIDO, supporting field data collection, environmental and technical surveys, and project-based research activities. Assisted in analysis and preparation of technical reports, ensuring accurate documentation and compliance with project objectives and international standards, while coordinating with field teams and stakeholders for effective data gathering and implementation support.

Internship

Brunel University London UK

Sep 2012

Completed a 2 month internship with Brunel University London UK

FLAGSHIP PROJECTS

1. Water Resources Accountability in Pakistan (WRAP) – FCDO/UKAID

Led provincial implementation of a donor-funded governance and water accountability project in Gilgit-Baltistan, ensuring alignment with national workplans, budgets, and results frameworks. Managed coordination with government departments, NGOs, and field teams, and delivered consolidated technical and financial reports. Strengthened data systems for monitoring, risk analysis, stakeholder engagement, and evidence-based decision-making.

WRAP – Integrated Water Governance & Infrastructure Program

Supported implementation of water and environmental governance interventions through structured planning, data validation, and reporting systems. Coordinated field operations, stakeholder engagement, and environmental monitoring activities while ensuring compliance with donor requirements and development of technical documentation and progress reports.

Drinking Water Safety Plans for Mountain Ecosystems (UNDP / Government of Italy)

Developed Water Safety Plans for 10 villages in Gilgit-Baltistan under a UNDP-supported ecosystem governance initiative. Conducted field surveys, stakeholder consultations, water quality data analysis, and technical reporting to support sustainable drinking water governance in protected mountain regions.

Hydropower Environmental Impact Assessments (EIA/IEE Projects – GB)

Led multiple EIA/IEE studies for hydropower projects (0.5 MW to 6 MW) in Gilgit-Baltistan. Conducted environmental baseline studies, GIS-based analysis, impact assessments, and regulatory compliance reporting, integrating sustainability and environmental safeguards into project design.

National & International Socio-Economic & Environmental Surveys

Supervised large-scale surveys across Pakistan for ADB, NDRMF, Dalberg, and Helix Institute. Managed field teams, ensured data quality, and contributed to national-level analytical reporting on governance, disaster risk, financial inclusion, and socio-economic indicators.
